

AIA/CES Registered Provider Presentation Summary

Provider: McKEON
Provider Number: J497
Program Name: Higher Education and Building Code Compliance
Program Number: EDU100
Length: 1 hour
Credits: One
SD/HSW Credit: Yes

Program Description: This seminar focuses attention on two large university structures, highlighting multiple technologies within the McKEON product line. Special emphasis is given to unique vertical space design solutions that mitigate atrium requirements.

The seminar covers:

- The fundamental code requirements as they apply to the design of vertical spaces.
- Wide-span opening protectives and their applications in passive wall systems.
- Exploring the significant impact code requirements have upon building function, ambiance and overall appearance.
- Examine unique circumstances wherein NFPA 101 and IBC collaborate to maximize fire and life safety for building occupants as applied to vertical spaces.

Instruction Method: The program is a PowerPoint presentation with handouts.

A/V Needs: Electrical power access and a screen or wall.

Target Audience: Architects, Specifiers, and Design Professionals

Facilitator Qualifications: _____ is authorized as a presenter for McKEON, an AIA/CES provider.

Cost: There is no charge to bring this program into a firm.
